

FIND YOUR RING SIZE

PLACE YOUR RING ON THE CIRCLE

Step 1

To find your ring size, choose a ring which fits the same finger and hand as the ring you intend to buy.

Step 2

Please print this page without scaling. To verify if this page is printed correctly, use a ruler to measure the scale. It should correspond with the above mentioned 20 mm.

Step 3

Place this ring on the circles to decide which size you need to choose. The diameter of the circle must have the exact same diameter as the interior of your own ring. The black circle needs to stay fully visible when you place your ring on the circles.

Place the ring on one side nicely on the drawing so that the circle is clearly visible, if you do not see the same thickness of the circle on the other side you do not have the right size. If the circle has the same thickness everywhere you have the right size.

Please note that the style of the ring can affect the ring size. If your ring is between two sizes, we advise you, in case of a wider ring to size up and in case of a fine one to size down.

Repeat this a few times, because this is precision work!

FIND YOUR **RING** SIZE

ORDER A PLASTIC RING SIZE METER

In case you have doubts about the right ring size, we offer an extra service by sending a plastic adjustable multisizer to measure the exact ring size.

We send it by mail for an amount of **5 euros**. If you buy a ring with us afterwards, you will be refunded an amount of 5 euros. This 5 euro will not be deducted from the purchase of the ring but will be **refunded** to your account separately after the purchase.

CHECK YOUR RING SIZE

EASY TO USE AND ACCURATE

READ INSTRUCTIONS CAREFULLY

STEP 1

The multisizer works like a belt. Simply turn around and put the end through to form a ring shape.

STEP 2

Slide the multisizer on your finger and adjust until it feels comfortable.

CHECK that it moves over the joints of the finger without difficulty.

STEP 3

Simply read off the indicated size when best fit is achieved on your finger.

(size 56 shown)

A few tips

- A ring must sit comfortably. It must be tight enough so that you do not lose it, but at the same time just loose enough to slide it over the joints from your finger.
- Keep in mind that the finger may change slightly in size depending on the time of the day and the weather.
- To avoid a wrong measurement, it is best to measure the size 3 to 4 times.
- Ines Bouwen is not responsible for any mismeasurement. If you have any questions, please contact our customer service at shop@inesbouwen.be
